EDUCATION

JD College of Engineering and Management

Nagpur, Maharashtra

B.Tech, Computer Science & Engineering — CGPA: 8.77

Sept 2024 – June 2028

- **Profile:** Computer Science student with a strong interest in Web Development and Full Stack Development. Skilled in HTML, CSS, JavaScript, React.js, and backend fundamentals, with hands-on experience in building responsive web applications and solving real-world problems through projects.

TECHNICAL SKILLS

Languages: C, JavaScript

Frontend: HTML5, CSS3, React.js

Backend: Node.js, Express.js

Databases: MongoDB

Tools & Platforms: Git, GitHub, Postman, VS Code, PowerShell

Core Concepts: Object-Oriented Programming, Data Structures & Algorithms

PROJECTS

Personal Portfolio Website | *HTML, CSS, JavaScript* | [GitHub](#)

2026

- Designed and developed a fully responsive personal portfolio website to showcase technical skills, projects, certifications, and academic achievements.
- Built an intuitive and user-friendly interface using HTML, CSS, and JavaScript, ensuring seamless navigation across desktop and mobile devices.
- Implemented dedicated sections for About, Skills, Projects, Resume, and Contact Information to create a professional online presence.
- Addressed the challenge of presenting academic and project work in a structured manner by developing a centralized platform that enables recruiters to quickly evaluate qualifications and achievements.

VoteX — Online Voting System | *React.js, React Router, CSS, LocalStorage* | [GitHub](#)

2026

- Developed a responsive online voting platform enabling user registration, authentication, candidate management, voting, and result declaration through an intuitive interface.
- Implemented protected routes and session-based access control to ensure that only authenticated users could participate in the voting process.
- Designed and developed candidate cards, voting dashboard, and result pages using React.js, providing a seamless and user-friendly experience across devices.
- Addressed the challenge of manual vote management by creating a digital voting workflow with instant vote tracking and automated result generation.
- Implemented a one-vote-per-user mechanism using LocalStorage to prevent duplicate voting and maintain fairness in vote counting.

INTERNSHIPS

• Web Development Intern — SkillCraft Technology

- Worked on front-end web development concepts, responsive web design, and project-based learning using modern web technologies.

• Full Stack Development Intern — Apex Planet

- Gained hands-on experience in full-stack development, including frontend and backend concepts, project development, and application workflows.

CERTIFICATIONS

• Introduction to Internet of Things — NPTEL

• Data Structures and Algorithms — Infosys Springboard

• Building Gen AI Systems — L&T EduTech

• Tech Alpha Hackathon Certificate — WideSofttech
